PUT DEAL DESK ON YOUR PHONE.

Your buying companion. One icon. Ready for your next deal.

OPEN THE APP

app.thecardmethod.com

Tap the link, or scan this code with your phone.

01 / iPHONE: ADD YOUR APP ICON

1. Open the address above in **Safari**.
2. Tap **Share** (the square with an upward arrow). It may be in the **three-dot menu**.
3. Scroll down and tap **Add to Home Screen**.
4. Name it **Deal Desk**. Turn **Open as Web App** on, if shown.
5. Tap **Add**, then open Deal Desk from your Home Screen.

Missing the option? At the bottom of the Share menu, tap Edit Actions and add Add to Home Screen.

02 / ANDROID: ADD YOUR APP ICON

Open the app in **Chrome**. Tap the **three-dot menu**, choose **Install app** or **Add to Home screen**, and confirm. Menu wording varies by phone.

03 / SIGN IN WITH YOUR COURSE EMAIL

Use the same email you use for your course. Tap **Email my code**, check your inbox, and enter the code in Deal Desk. You may need to sign in again when opening your new icon for the first time.

Access is manually activated at launch. A sign-in code verifies your email; it does not activate membership. If access is missing, request activation in the Deal Desk course lesson comments. Never post your email, sign-in code, or purchase details there.

YOUR FIRST DEAL. WITH A PLAN.

Check one card. Save your reasoning. Learn from the outcome.

FOUR MOVES BEFORE YOU BUY

1. Give the card a job. Choose Flip, Hold, Grade and sell, or Personal collection. Identify the exact year, set, parallel and condition.

2. Put evidence behind the excitement. Check authenticity, eye appeal, collectability, demand, completed sales and your exit. Use “What to look for” for help. “Not sure” means research first.

3. Run your numbers. Enter asking price, realistic resale, selling fee, other costs and target profit. Include shipping, supplies and grading where applicable.

4. Save the plan. Close the loop. Tap Save this deal while online. Record whether you bought, passed or sold. For sales, enter actual buy price, sale price and all costs.

PRACTICE: NEGOTIATE OR PASS?

Asking price	$100
Estimated resale / selling fee	$150 / 15%
Other costs / target profit	$12 / $25
Buying ceiling	$90.50
Estimated profit at asking price	$15.50

The $100 asking price misses the $25 profit target. At a 15% lower resale, the example loses $3.63. These are hypothetical inputs, not a prediction.

SAVE ONLINE. KEEP A BACKUP.

Internet is required for sign-in, membership checks, and account saves or sync. **Unfinished reviews are not saved automatically.** Saved deals appear in My deal desk. Use Export backup for a private copy. Sign out on shared devices.

The app uses your research and estimates. It does not verify authenticity, supply live comps, or guarantee grading, resale timing, or profit.
